Note: Certain statements in this press release are forward-looking statements within the meaning of Section 27E of the Securities Exchange Act of 1934, as amended, and are subject to the safe harbor created thereby. These statements describe the Company's future financial performance and involve known and unknown risks, uncertainties and other factors that may cause the Company's actual results, levels of activity, performance or achievements of the Company or its industry to be materially different from those implied by any forward-looking statements. In some cases, forward-looking statements can be identified by the use of certain words or phrases, such as "will," "could," "would," "should," "expect," "plan," "anticipate," "intend," "believe," "estimate," "predict," "potential," "may" and "might." The Company has based these forward-looking statements on its current expectations, assumptions and projections. While the Company believes these expectations, assumptions, estimates and projections are reasonable, they are only predictions and involve known and unknown risks and uncertainties, many of which are beyond the Company's control. These and other important factors, including those discussed under "Risk Factors" in the Company's Annual Report on Form 10-K for the year ended June 30, 2007, as well as the Company's subsequent filings with the Securities and Exchange Commission, may cause actual results, performance or achievements to differ materially from those expressed or implied by these forward-looking statements. The forward-looking statements in this press release are made only as of the date hereof, and unless otherwise stated, they are not intended to be updated or revised. Under applicable securities laws, the Company disclaims any intention or obligation to update or revise any forward-looking statements to reflect new information, future events or otherwise.
